

**ANNUAL REPORT
FISCAL YEAR 2011**

**RURAL VOLUNTEER FIRE DEPARTMENT ASSISTANCE PROGRAM
(HB 2604)**

I. OVERVIEW

The Rural Volunteer Fire Department Assistance Program (also known as the HB 2604 Program) was established in 2001 by the 77th Texas Legislature. It is funded through the Rural Volunteer Fire Department Assistance Fund (Fund 5064), which is composed of revenue derived from an assessment on certain property and casualty insurers. The program is administered by the Texas Forest Service.

The program was developed in the spring of 2002 in consultation with statewide advisory groups composed of firefighters, community leaders, educators, representatives from the State Firemen's and Fire Marshals' Association of Texas, Texas Engineering Extension Service, and the Texas Commission on Fire Protection. The program is designed to provide cost-share grants to volunteer fire departments in the following categories:

Fire Trucks	90% of the actual cost not to exceed certain maximums
Fire Truck Chassis' / Slip-On Modules	90% of the actual cost not to exceed certain maximums
Fire Equipment / Rescue Equipment	75% of the actual cost not to exceed certain maximums
Firefighter Protective Clothing	90% of the actual cost not to exceed certain maximums
Firefighter Training Tuition / Fire Training Libraries	100% of the cost of approved certified courses, subject to certain maximums
Dry Hydrants	100% of the costs of components, subject to certain maximums

II. ACTIVITY

In fiscal year 2011, the grant program budgeted \$23,250,000 for training and equipping volunteer fire departments. Highest priority was directed at approving all outstanding applications for first fire trucks.

To effectively increase the local response capacity across the state the TFS has been working to place two fire trucks, preferable one tanker and one fire engine, at each eligible fire department in the state. As an initial step in this process, the program has been attempting to approve one vehicle grant for every eligible applicant before providing a second vehicle grant to a previous recipient. The 2011 funding strategy was adopted with the intent of completing the first step of this initiative, by approving every fire department request for their first vehicle.

Regional allocation targets were modified in order to achieve this statewide objective.

Grant funds were distributed by Region in these proportions:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
12.25%	73.24%	14.50%

During two of the FY 2011 funding meetings, program staff succeeded in approving all applications for first vehicle grants. However, new first requests have continued to be received. Currently there are 23 open requests on file from fire departments who have never received a fire truck grant. All of these have been received since May of 2011.

III. STATUS

The Texas Forest Service conducted funding meetings in September, November, March, and July of FY 2011. The attached summaries show the grant approvals by category, region, fire department, and county. The following is a summary of the requests for assistance that were approved:

<u>Category</u>	<u>Number of Grants</u>	<u>Number of Items</u>	<u>Cost-Share \$ Value</u>
Fire Trucks	146	146	\$17,648,638
Fire Truck Chassis / Slip-On Modules	68	68	\$1,487,795
Fire / Rescue Equipment	203	229	\$1,035,856
Personal Protective Equipment (PPE)	317	7,806	\$1,420,930
Training	1,572	5,572 Students 54 Libraries 22 E-Projectors	\$1,875,495
TOTAL	2,306 Grant Applications Approved		\$23,468,716 in Grant Funds Allocated

The 81st Texas Legislature transferred \$1,000,000 from the Texas Commission on Fire Protection's Fire Department Emergency Program to the Texas Forest Service Rural Volunteer Fire Department Assistance Program in January of 2010. The Texas Forest Service worked closely with fire service advisors to develop guidelines for a new grant program called the TIFMAS Grant Assistance Program. TIFMAS is an acronym for Texas Intrastate Fire Mutual Aid System. The TIFMAS Grant Assistance Program provides grants to fire departments that are not otherwise eligible for the Rural Volunteer Fire Department Assistance Program. In fiscal year 2011, the following grants were awarded under the TIFMAS Grant Assistance Program:

<u>Category</u>	<u>Number of Grants</u>	<u>\$ Value</u>
Fire Trucks	8	\$ 799,951
Training Tuition	258 (641 students)	\$ 195,600
Breathing Apparatus	1	\$ 4,449

IV. PLANS FOR FY 2012

Spending authority for the HB 2604 Program has been reduced for FY 2012 and FY 2013. Grant budgets for each fiscal year will be \$7 million. As a result, the Texas Forest Service will modify its grant assistance strategy to place the highest priority on approving grants in the categories that most significantly impact firefighter safety. Those categories are Personal Protective Equipment and Firefighter Training. A line item of \$1.0 million will be set aside for emergency grants to help fire departments replace fire trucks and equipment that may be lost in unexpected, catastrophic events. This strategy was vetted with the State Fireman's and Fire Marshal's Association and the Texas Fire Chief's Association.

V. FUTURE NEEDS

RVFDAP, or the HB 2604 Program, has been incredibly successful since it was initiated by the 77th Texas Legislature. However, with over \$180 million in unapproved requests, much remains to be done. Restoration of program funding, as state economic conditions allow, would greatly expedite the program's ability to meet these critical needs.

VI. EFFECTIVENESS

The Rural Volunteer Fire Department Assistance Program continues to be a highly effective program and is recognized nationwide as one of the most successful legislative initiatives of Texas government in the 21st century. In its first nine years of operation it has placed into service over 1,407 fire trucks, has provided safety gear to an estimated 53,000 firefighters, and has helped train approximately 39,000 firefighters. In 2006, the USDA Forest Service awarded the program its national Franklin Award for outstanding service in protecting underserved rural communities.

The Texas Forest Service continues to leverage HB 2604 funds with federal USDA grant funds in an effort to stretch state funds as far as possible. The program has a simple and straightforward grant application process that makes it easy for rural fire departments to enroll.

The program continues to be very friendly and responsive to the needs of Texas communities. It has experienced overwhelming support and participation from Texas volunteer fire departments. Grant application backlogs are forecast to continue for the foreseeable future.

On behalf of volunteer fire departments everywhere, the Texas Forest Service extends its sincere thanks and gratitude to the members of the Texas Legislature who work to strengthen and improve this valuable program.
